Psychic Reading Preparation Worksheet

You will call Robert at 415-651-4018 on Date: _____ at Time: _____.

Write down your questions, starting right away.

Some people write three or four questions, some people have twenty or more.

What tends to happen is that answers to questions expand to cover the area of interest you ask about.

Three or four questions may fill an hour. An answer to one question may cover five or six questions when a person calls with a larger number of questions.

*The important thing is to **make your questions as specific as possible.**
The more specific your question, the more specific the answer will be.*

If you ask a very specific question we may both be astonished at the detail and subtlety of the answer that comes back.

Group your questions by topic: Career, Money, Romance, Health*, Family. This helps your Psychic Reading to flow, and keeps us from going over the same material more than once.

Look at your questions once or twice a day, change them, add new ones that occur to you, scratch out any that you no longer think apply.

Have a piece of paper to write on when you call. During your Psychic Reading answers to questions can spur new questions. I'll ask you at the end of each section if you everything was clear, if you need me revisit some part of an answer, and if you have any additional questions that came up during that section.

I will ask you again at the end of your Psychic Reading if you have any additional questions that have come up. It is very important to me that you feel you have received usable information and value for your time and money. Please see the [Testimonials](#) clients have sent me.

Flip this sheet over, and begin writing down your questions.

I look forward to speaking with you!

* I am not a medical doctor, thus I can not diagnose, nor prescribe. I believe in health and wellness and will answer all of your questions to the best of my ability, but will be doing so strictly based on what I see psychically, and I should not be considered an alternative to medical care.

Likewise, I am not a lawyer and should not be used as an alternative to legal counsel.
